

to move the bill.

CLERK: Motion on the desk Mr. President.

PRESIDENT: Read the motion.

CLERK: Read motion regarding LB616.

PRESIDENT: Senator Snyder.

SENATOR SNYDER: Mr. President, members of the legislature this bill has been here a couple of times in one form or another

(end belt #7)

(start belt #8)

the short time I have been in the Legislature. Personally I'm against any time of a guaranteed mark-up and I'm also against selling below cost. I'm reminded that when I see this type of a bill of a situation of the cost of milk in our state. It seems to me that just a couple of years before I was elected there was a bill which allowed for a floor base for the price of milk. I think that the cost of milk has gone up quite a bit in the past four or five years, and I think that if a person is able to stay in business and still not have to sell below cost as a lost leader, I think that is what we call free enterprise and that is what has been with us for many, many years, of course on the transportation cost issue we speak of equalization but look at who was for the bill, the motor carriers of course, and my friend Jim Moylan of the licensed beverage association. If we are going to provide a cost for transportation to be equalized for a product in our state, why don't we also pass a resolution asking our congressional delegation to try and see if they can't have something done about the delivery charge on a new auto out of the city of Detroit so that we in Nebraska both in the eastern corners and the western corners pay the same deliver charge for a new auto that the person in Detroit, Michigan where the auto is made. This is a very dangerous area and I wasn't going to get into the debate, but I thought that it was going to be a short debate earlier. It didn't turn out that way, I'm not sure that there really are that many of us in the Legislature that understand what is in 616 right now. There was a bill as original introduced and there was a bill as amended out of committee and now there is a bill as amended on the floor. In addition to the fact that there is that much in your book and with my protest against price fixings I felt obligated to make this motion to indefinitely postpone LB616.

PRESIDENT: The motion is to indefinitely postpone LB616, are we ready to vote? Those in favor will vote aye, those opposed vote no. It will take 25 votes to kill the bill on Select File. Have you all voted? Clerk will record.

CLERK: 7 ayes, 20 nays to indefinitely postpone.

PRESIDENT: Themotion fails, we are ready to advance the bill.

SENATOR CAVANAUGH: Move to E & R for engrossing.

PRESIDENT: We have a voice vote on this unless there is a call for a machine vote. Those in favor vote aye, those in favor say aye, those opposed say no. The bill advances.
